

Aftercare information

- Leave the bandage on for about 2 / 3 hours
- Wash the tattoo with water and perfume free soap, then gently pat dry with a clean towel (you can shower)
- Don't put any crème or lotion on your tattoo for the first two to three days
- If the tattoo gets stuck to your clothes, take a shower with your clothes on and soak loose
(Don't pull your clothes off or you'll damage the tattoo)

During the healing process :

- After about 3 day's you start to apply your tattoo with a neutral perfume free body lotion.
We recommend : Bepanthen / hustle butter / Vaseline intensive care advanced repair
(Do not scratch the scabs or you'll damage the tattoo)
- Don't use any greasy crèmes like Vaseline (petroleum jelly) this will attract dust and bacteria
- Try not to touch your tattoo, if you do make sure your hands are clean
- Don't cover your tattoo with bandages
- It will take about 2/3 weeks until your tattoo is healed
- Avoid saunas, bathing and swimming pools for 2 weeks
- Do not expose your tattoo to direct sunlight or a tanning booth for the 1st month
